UAE RAM METHODOLOGY

UAE RADIO AUDIENCE MEASUREMENT (RAM) APPROACH

Nielsen has implemented a unique hybrid diary methodology, formed on a foundation of a strong Establishment Survey to determine the population characteristics.

ESTABLISHMENT SURVEY

Global Nielsen standard's have been applied to our UAE RAM Establishment Survey. Given the dynamically changing population of the UAE, we will conduct the Establishment Survey twice per year.

Key Facts:

- Methodology: face to face CAPI interview covering all areas of the UAE, in multiple languages
- Sample size: 17,330 in 2017; 10,400 in ongoing years
- Rolling database forming the foundation of the diary waves
- Information areas include household demography, income and occupation, product ownership, and chief-wage earner data

NIELSEN UAE DIARIES - A HYBRID APPROACH

Nielsen's hybrid 7-day diary approach is designed to capitalize on the UAE market nuances and offered the respondents a diary choice that best meets their individual needs and lifestyle

M-diary: The m-diary is a proprietary Nielsen device-agnostic platform that captures radio listening digitally. The diary can be used across fixed and mobile devices that have an internet connection, anytime and anywhere.

Paper diary: Our paper diary has been designed as a sticker diary, where respondents place stickers with the stations they have listened to at the top of the diary booklet and record their listening daily.

Key Facts:

- Quarterly diary panel size of 2,100 to represent the UAE population structure, in multiple languages
- Ages 10-19 included through household flooding techniques.
- Consistent data collection with diaries completed every day of the year.
- Listening captured for UAE radio stations
- Structured respondent engagement to ensure compliance
- Information areas include all radio listening in 15 minute time breaks, by station listened to; place of listening; device listened on
- The diaries are deployed in four different languages.
 - *Arabic and English – paper and m-diary*
 - *Hindi and Urdu - paper diary only*

FINAL DIARY SAMPLE FRAMEWORK FOR EMIRATE AND GENDER

The sample of 2100 respondents represents 10+ years individuals of the UAE population which is 8,479,200 individuals

GLOSSARY OF METRICS

CUME. / REACH: The total number of unique people (net) who listen for at least one quarter hour during the course of a selected time-period / day-part.

STATION SHARE: The percentage of the total radio listening audience in a given time period, which is tuned to a particular station.

Share is a station's audience expressed as a percentage of the total radio audience for the same time period. Share is always calculated against all stations in the market.

TIME SPENT LISTENING: The estimated length of time that a Station's listeners spend listening to that Station.

AVERAGE AUDIENCE: The average number of listeners tuned in, at any given time during the selected time period.

+/-: Difference between 2018 and 2017 for the statistics used (Cume, Share, TSL and Average Audience), not a ranking difference.

Embargoed until 1pm Monday 30th April**UAE Radio Audience Measurement Universe: Total UAE Population**Quarter 1 2018; 1ST January 2018 to 30th March 2018

Report: Full week (Sunday to Saturday), 12am to 12am

ABOUT NIELSEN

Nielsen Holdings plc (NYSE: NLSN) is a global measurement and data analytics company that provides the most complete and trusted view available of consumers and markets worldwide. Our approach marries proprietary Nielsen data with other data sources to help clients around the world understand what's happening now, what's happening next, and how to best act on this knowledge. For more than 90 years Nielsen has provided data and analytics based on scientific rigor and innovation, continually developing new ways to answer the most important questions facing the media, advertising, retail and fast-moving consumer goods industries. An S&P 500 company, Nielsen has operations in over 100 countries, covering more than 90% of the world's population. For more information, visit www.nielsen.com.

THE SCIENCE BEHIND WHAT'S NEXT™
