AN UNCOMMON SENSE OF THE CONSUMER™
BEYOND 7 DAY TELEVISION VIEWING (Additional Subscription Service)

Beyond 7 Day Television Viewing is delivered via NPOWER and provides household and demographic tuning data from the National Panel to all programming collected for up to 35 days post the original telecast. On a subscription basis with data effective Monday, August 29, 2016, NPOWER includes time-shifted viewing through day 35 for broadcast, cable and syndication programs. All streams through Live+35 can be analyzed across the household and persons level characteristics currently available in NPOWER.

The releases are in weekly intervals for
- Live+8 – Live+14
- Live+15 – Live+21
- Live+22 – Live+28
- Live+29 – Live+35

In addition to program ratings, the weekly deliverables include average commercial minute ratings so clients can see the incremental commercial viewing associated with this extended viewing window (assuming that program and commercial content match the linear feed through day 35). Reporting allows “Live+X” for all streams, including commercial ratings through day 35. Digital in TV Ratings (DTVR) data are not included beyond 7 days.

For those that also subscribe to the TV Connected Devices service, there is a plan to enhance the Beyond 7 service to report the full list of Connected Devices beyond 7 days in the future. Currently, all beyond 7 day data are included in the Traditional TV/Set Top Box connected device.

REPORTING OPTIONS FOR SUBSCRIBERS

- **VIEWING TYPE page**
  The Viewing Type page has one additional selection: Live+35. New Standard Playback Periods: Live+14, Live+21, Live+28, Live+35, and Playback Only within 35 Days

  Live+35 will give the latest data available through 35 days. The Live+35 Viewing Type includes Households tuning to or Persons viewing a program at the actual time the show was telecast or playback within 35 days (840 hours) of the original telecast time. When running any report based on Live+35 Viewing Type, if the entire measurement interval is not loaded with the Live+35 data, the report will not include telecasts or daypart information for the dates where Live+35 data are not loaded.

- **PLAYBACK PERIOD AND MEDIA SOURCE page**
  The Playback Period and Media Source page will now have a Standard Playback Period scroll box. Within the scroll box, Beyond 7 subscribers will see these additions:
  - Live+14 (+336 Hours)
  - Live+21 (+504 Hours)
  - Live+28 (+672 Hours)
  - Live+35 (+840 Hours)
  - Playback Only within 35 Days

  Use the control key to select multiple playback periods at once within the scroll box.
NPOWER: BEYOND 7 DAY TELEVISION VIEWING

Custom Playback Period will also allow subscribers to access data beyond 7 days in any "Live+" and "Playback Only" increment within 35 days using minutes, hours, or days.

Selecting Custom Live+x – e.g. Live +8 Days
1. Check Live+ selection box
2. Type in days or use up/down arrows
3. Click drop down arrow to select Days

Selecting Custom Playback Only – e.g. Playback Only 8-35 days
1. Check Playback Only selection box
2. Type Playback Only start day or use up/down arrows
3. Type Playback Only end day or use up/down arrows
4. Click drop down arrow to select Days

Note: The max playback selection is 35 days, 840 hours, or 50,400 minutes.
